

**CITY OF WILMINGTON – DEPARTMENT OF PUBLIC WORKS**  
**WATER MAIN/SERVICE REPLACEMENT**  
**NOTICE OF CONSTRUCTION ACTIVITY**

\_\_\_\_\_ to \_\_\_\_\_  
**7 AM to 5 PM (M-F)**

Brandywine Construction Co., Inc. – under City contract 24027PW with the City of Wilmington Department of Public Works – is performing water main replacement work in your neighborhood as part of the City’s ongoing maintenance of our water system.

You may see “No Parking” signs, safety barrels along your street, and construction equipment or materials staged in the surrounding area. While we make every effort to keep the area clean at the end of each day, we ask for your patience as it remains an active construction zone. Due to the nature of the work, you may also notice wet spots along the roadway and sidewalk areas.

If your water service is interrupted during working hours, please contact the on-site crew for assistance. When your service is connected to the new main, you will receive an additional notification at least 24 hours in advance because the connection will require a temporary disruption of service.

**We need your help.** If the on-site crew is unable to assist you, we encourage you to use call the Public Works Call Center at 302-576-3878 to report any water-related concerns, including discolored water, low pressure, main breaks, and fire hydrant issues. Operators are available Monday through Friday, from 8:30am to 4:30pm. After hours, please contact Wilmington Police Non-Emergency at 302-654-5151.

The completion of this work is an important water supply improvement for your area. We thank you in advance for your cooperation and apologize for any inconvenience the work may cause.
